

**RUBEROID RED ROOFING**

THE COLOR, A WARM, DEEP RED, IS NOT A PAINTED COAT. IT IS INCORPORATED IN THE WEATHER-COAT OF THE ROOFING DURING THE ACTUAL PROCESS OF MANUFACTURE. THE ROOFING RETAINS ITS BEAUTY AND ITS WEATHER-PROOF PROPERTIES INDEFINITELY.

Intended for handsome residences, barns or wherever a durable, ornamental roof covering is desired. Any handy man can apply it. Fixtures supplied free with every roll.

ALSO MADE IN BROWN.  
SEND FOR SAMPLES OF EITHER COLOR.

You take no risk in using Ruberoid, which is and has been for fifteen years the standard of roofing quality.

For Sale in Barre by C. W. Averill & Co.

## The Times' Daily Short Story.

### How She Met Her Fate

(Original.)

Drinking tea—all of us married women—we fell to comparing notes as to how, when and where we first met our husbands. One had sung in a church choir with the man she married, another had met her fate at a dance in a barn, a third was the wife of one who had fallen in love with her at seeing her run across a back yard. The experiences were not especially startling, and we were growing tired of them when Mrs. Perkins, a meek little woman who had kept silent, was invited to give her first meeting with her husband.

"Oh, I always wanted to marry a clergyman," she said demurely.

"And did you?"

"It was this way: When I was a girl my father was engaged in mining in Colorado. Needing a housekeeper, he sent for me to go out to him. I traveled by rail as far as the cars went, then by stage. The coach was full of passengers, and we all soon got acquainted—at least the others did, for the conventional life I had led was so different from that of the west that I sat mum as a church mouse. A young man in a white cravat sat directly opposite me."

"Your fate?" interrupted one of the listeners.

"He talked very well, and after a time many of the passengers were listening to him. He had just been graduated at a theological seminary and was going into the mountains to preach the gospel to the rough element that abounded there. A small, quiet looking man beside me, with a soft voice, wouldn't say anything at first, but finally gave the clergyman some information concerning the class of people he would have to deal with, especially the 'toughs.'"

"Of course I couldn't but admire the man who had given up the comforts of the east to come to such a country to preach the gospel to such terrible people. He seemed glad to learn what he would have to meet and asked his informant a great many questions. What impressed me in his favor was that he didn't seem at all appalled at the terrible prospect before him."

"While we were talking," Mrs. Perkins went on, "there was a report ahead and the coach suddenly stopped. A man whose face was covered with a bandanna handkerchief put his hands up at the coach door and said, 'Hands up! I didn't know what to do, for such things were entirely new to me, but, seeing the other passengers put their hands on their heads, I did the same. The man at the door had a revolver in each hand, and I was in terror lest one of them might go off accidentally, for I never could stand firearms nor people who handled them carelessly.'"

## NO SEBASTOPOL RISING

Reported Outbreak Proves to Be Fabrication

### THE REVOLUTIONISTS

Planned Moscow Robbery — Committee Said to "Need the Money" — Witte's Retirement Is Discredited.

St. Petersburg, March 22.—The sensational reports current here Tuesday night to the effect that the execution of former Lieutenant Schmidt, leader of the naval mutiny at Sebastopol in November last had been followed by extensive mutiny of sailors at Sebastopol Tuesday were unfounded. All is quiet there. The rumor of mutiny came from a member of the social revolutionary party who claimed to have received a cipher despatch. As translated and displayed the telegram said briefly that the sailors, infuriated by the refusal of Emperor Nicholas to pardon Lieutenant Schmidt, and their fellow sailors, rose in their barracks and seized and imprisoned the majority of their officers. The despatches add that the city of Sebastopol is almost entirely in flames. It is also stated that a student at the Technological Institute has received a similar telegram. The social democrats and revolutionaries of Moscow are mourning the death of Lieutenant Schmidt. Thousands of workmen Tuesday were on strike in their arms and funeral services were held in the chapel of many factories. The population generally is also deeply affected. Requiem masses have been said in several of the churches. As protest against the execution of Lieutenant Schmidt the pupils of all the Odessa high schools struck yesterday.

Witte's Resignation Discredited.

No confirmation of the reported intention of Count Witte to retire from office immediately is obtained at the premier's chancellery, but on the contrary the possibility of his relinquishing his task pending the meeting of the national assembly is not admitted. In fact, there is a disposition to treat Count Witte's reference to M. Kokovtsov, which created such a stir in the council of the empire as an ironical thrust at the overweening ambition of the former minister of finance. It is also denied that the condition of Count Witte's health is so deplorable. He is more or less constantly a sufferer, but no alarming symptoms have developed.

### STRIKE MOVEMENT TAKES ON NEW FORCE IN RUSSIA

In One City 10,000 Workmen Have Struck, and Moscow Is Growing Uneasy.

St. Petersburg, March 22.—The growing unrest and agitation among the Russian workmen is largely due to the government's repressive measures in the provinces against the strike movement. At Ekaterinoslav, 20,000 men of the Hughes Iron Works are already reported to have struck and at Moscow great agitation prevails in the industrial sections. Unhappily, the whole movement is in connection with the demand of the Social Democrats and revolutionaries for another general political strike.

The seats to be occupied by members of the national assembly in the Tauride Palace have been equipped with electrical apparatus similar to the system proposed several years ago for use in the House of Representatives at Washington, by which the members press buttons and register their votes at the clerk's desk, thus avoiding the delays of roll calls.

### MUTINY AT ODESSA.

Admiral Ordered Not to Fire on Rebellious Ships.

Odessa, March 22.—In protest against the execution of Lieutenant Schmidt, the pupils in the local high schools have gone on strike.

The 2,000 sailors on board the ships in the harbor of Sebastopol hoisted black flags and Admiral Choukine ordered the forts to bombard the ships, but later withdrew the order on instructions from St. Petersburg.

Lieut. Schmidt was shot because it was impossible to find any one to hang him.

### Vote by Electricity.

St. Petersburg, March 22.—The seats to be occupied by members of the national assembly in the Tauride Palace have been equipped with electrical apparatus similar to the system proposed several years ago for use in the House of Representatives at Washington, by which the members press buttons and register their votes at the clerk's desk, thus avoiding the delays of roll calls.

### Road Confiscates Coal.

Saginaw, Mich., March 22.—The Pere Marquette railroad has issued an order confiscating for its own use all of the coal that is mined in the Saginaw valley between now and April 1. This is a measure made possible by its contracts with the operators, and is taken as a precautionary measure in view of the threatened coal strike.

### A Skin of Beauty is a Joy Forever.

DR. T. Felix Gouraud's Oriental Cream or Magical Beautifier.

Remove Tan, Freckles, Blemishes, and Skin Diseases, and every blemish on the face and body. It is the best of all skin preparations. It is used by the best of the world's beauty experts. It is the only skin preparation that is guaranteed to give you a perfect skin. It is the only skin preparation that is guaranteed to give you a perfect skin. It is the only skin preparation that is guaranteed to give you a perfect skin.

High Post for Dunsinair.

Victoria, B. C., March 22.—It is stated that James Dunsinair, formerly postmaster of British Columbia and a wealthy coal mine owner and business man of Victoria, is to be made governor, vice Sir Henri Jell de Fontenay.

## MADE FROM NATIVE ROOTS. SAFE AND RELIABLE.

That the roots of many native plants, growing wild in our American forests, possess valuable and perfectly effective cures of human maladies is well proven. Even the untutored Indian had learned the curative value of some of these and taught the settlers the use of them. The Indian never liked work so he wanted his squaw to get well as soon as possible that he might do the work and let him hunt. Therefore, he dug "pawnee root" for her, for that was their great remedy for female weaknesses. Dr. Pierce uses the same root—called Blue Cohosh—in his "Favorite Prescription," skillfully combined with other agents, that make it more effective than any other medicine in curing all the various weaknesses and painful derangements peculiar to women. Many afflicted women have been saved from the operating table and the surgeon's knife by the timely use of Dr. Pierce's Favorite Prescription. Tender-patience over the lower pelvic region, with backache, spells of dizziness, faintness, bearing-down pains or distress should not go unheeded. A course of "Favorite Prescription" will work marvelous benefit to all such ailments, and it is a permanent cure if persisted in for a reasonable length of time. The "Favorite Prescription" is a harmless agent, being purely vegetable in its composition, and without a drop of alcohol in its make up, whereas all other medicines, put up for sale through druggists for curing all the various weaknesses and painful derangements peculiar to women, contain either alcohol or harmful habit-forming drugs. All the ingredients are printed on each bottle wrapper. It is a powerful, purifying tonic, imparts health and strength in particular to the organs distinctly feminine. For weak and sickly women, who are "worn-out," it is especially beneficial for women who work in store, office, or school-room, who sit at the typewriter or sewing machine, or bear heavy household burdens, and for nursing mothers. Dr. Pierce's Favorite Prescription will prove a priceless benefit because of its health-restoring and strengthening power.

For complete and true, scientific cure is Dr. Pierce's Pleasant Pellets. Mild, harmless, yet sure.

## HAD BOMB READY.

Moscow Bank Robbers Planned Death if Stopped.

St. Petersburg, March 22.—The Novoe Vremya's account of the robbery by masked men, at dusk Tuesday, of the Credit Mutual, one of the largest banks in Moscow, the robbers securing \$432,300, and that the robbers had a bomb and that several employees were present when the bank entered. The latter, numbering 30 men, were armed with bombs, as well as with revolvers. Their leader announced that he came in the name of the revolutionary committee, which needed money, promising that the employees of the bank would not be harmed unless they raised an outcry, in which event he would blow up the establishment with bombs.

"We are desperate and not afraid to die," said the bandit leader.

Throughout the operation a member of the band stood with a lighter fuse near a powerful bomb, which had been placed on a table, ready to be exploded if such a step became necessary.

In addition to lowering the window shades, the telephone was disconnected, and when the bandits had completed their work the employees of the bank were warned that if they gave the alarm within 15 minutes after the departure of the band, a bomb would be thrown through a window.

The bandits withdrew through a rear entrance of the bank.

## HELD THE MOB AT BAY.

Police and Militia Prevent a Race War at Chattanooga.

Chattanooga, Tenn., March 22.—Law and order won a signal victory in Chattanooga Tuesday night, when a squad of less than 100 policemen, backed by four companies of militia, held a large crowd of negroes, variously estimated at from 3,000 to 4,000, in check, preserved peace and prevented a race war which might have resulted in a great loss of life.

With the exception of a small fusillade of shots on East Ninth street, near the intersection of A, in which two white men were shot, and the burning of a house on West Ninth street, there were no disorders.

The threatened race war was due to the lynching by a mob of Ed Johnson, the negro accused of rape.

## Mandate Nullified by Lynching.

Washington, D. C., March 22.—For the first time a mandate of the Supreme court was nullified by the lynching of the negro, Ed Johnson, at Chattanooga. Mr. Justice Harlan on Saturday granted a stay in the case, Johnson being under sentence to be hanged Tuesday.

This is such an unusual circumstance that the officials of the department of justice have not yet determined what course they will follow in investigating whether the sheriff or any other official is guilty of negligence.

## 217 BERNARDO WAIFS.

Nearly 300 Young Women Also on the Dominion at Portland.

Portland, Me., March 22.—Most of the 800 passengers who arrived Tuesday night on the steamship Dominion from Liverpool, via Halifax, were sent away yesterday on special trains over the Grand Trunk railway. Included in the number were 217 waifs from the Dr. Bernardo home in London, who are to be sent to different parts of Canada and placed in homes for adoption, and 250 young women in a party conducted by a M. G. Gates, who seek employment as domestics in this country.

## WOULD MEAN DOUBLE PAY

Wage Demands of Miners Radical

### IN NEW APPLICATION

Average Raise Would Be 30 Per Cent—At the Same Time Many Men Would Get Double Present Pay, or Even Better.

New York, March 22.—The demands of the anthracite mine workers for a readjustment of wages and conditions in the anthracite fields would, if granted by the operators, mean a veritable revolution in mining conditions, according to a statement issued by the operators' committee of seven yesterday.

The committee consists of George F. Baer, W. H. Truesdale, J. B. Kerr, David Wilcox, Morris Williams, E. B. Thomas and J. L. Calk.

The statement declares it to be a mistake to assume that an eight-hour day and a 10 per cent wage increase represents a sum total of the demands of the miners. "The new and uniform scale," says the statement, "would place every man on the same basis, increasing the wages of some men as much as 100 per cent. The average increase under the uniform scale would be near 30 per cent for present pay. The proposed schedule would mean a veritable revolution in mining conditions."

The statement says that the miners insist upon a uniform wage scale for 146 separate and distinct classes of workmen about the mines. "For years," it continues, "the operators and employees have recognized the different value of labor in different localities and even in different sections of the same colliery. Yet now the miners' committee demands equal pay for the engineer who runs a 10-horsepower engine and the man who has a giant engine in his charge. They allow no more for the men working under great difficulties and dangers than for the same class of work at posts of ease and simplicity."

"Under the new demands, hundreds of employees would receive better than twice their present pay. There are many men whose wages range from 9.1 to 19.2 cents an hour, some of whom would have 140 per cent added."

There are seven and a half million of employees who would receive 93 per cent better than they are now getting. The sweeping demands of the miners would double the wages of many 'inside' men. While the general average of increase for inside day labor would approximate 22.8 per cent, and most of these men thus employed would receive under the schedule at issue advances of one-fifth to one-quarter in their pay, and there would be a great many men and boys working at the easier tasks involving less responsibility and less danger who would have their wages doubled.

## WILL LIVE IN FRANCE.

Bellamy Storer Not to Return to America Permanently.

Vienna, March 22.—The state department at Washington has cabled instructions to the American embassy here, to inquire if the nomination of Charles S. Francis as ambassador to Austria-Hungary to succeed Bellamy Storer will be agreeable to the government of Austria-Hungary.

It is reported here that Mr. Storer will return only temporarily to the United States and that he intends to settle permanently in France.

The unexpected retirement of Mr. Storer is widely discussed in diplomatic circles here.

## HOT REPLY TO MOODY.

Packer's Attorney Terms His Distinctions Artificial.

Chicago, Ill., March 22.—Attorney Miller, for the packers, replied yesterday to the argument made Tuesday by Attorney General Moody. He spoke first of the reference made by the attorney general to the two provisions of the interstate commerce law, in which the attorney general declared that the sections of the act relating to testimony under oath, and to reports from common carriers, not under oath were distinct, and the wording of the law proved that they were organized as entirely different processes. Mr. Miller declared that the distinctions drawn by the attorney general were so artificial that the most casual inspection of the law would scatter the contentions advanced by Mr. Moody in support of these distinctions.

## RED HOT INGOT KILLS.

Sydney Laborer Crushed by Several Tons Weight.

Sydney, C. B., March 22.—Crushed beneath a huge, red hot steel ingot, George Reid, a laborer, was instantly killed yesterday at the plant of the Dominion Iron & Steel company. Reid was at work when the ingot, weighing several tons, slipped from the massive tongs which held it in place on the floor above. It crashed through the flooring, and there was not sufficient warning for Reid to escape. His body was burned beyond recognition. None of the other workmen was injured, although several had narrow escapes.

## Ohio's Ban on Hazing.

Columbus, O., March 22.—The Senate has passed the anti-hazing bill, which originated in the house, and it now goes to the governor for his signature. The bill provides that any student of any university or school, public or private, found guilty of hazing shall be fined not more than \$200 or imprisoned for not more than six months in jail, or both.

## TO AID BRITISH SHIPPING.

Bill Introduced to Apply Regulations to Foreigners

London, March 22.—The long-promised bill amending the merchant shipping acts so as to place British and foreign ships on the same footing was introduced in the House of Commons, Tuesday, by David Lloyd-George, president of the Board of Trade. The bill, which undoubtedly will pass, makes the British regulations concerning overloading, under-manning and unseaworthiness of vessels, storage of grain on board ships, furnishing of adequate life-saving apparatus and control of emigration and passenger traffic which heretofore have applied only to British ships, applicable to all foreign vessels using British ports. Commenting on the measure Mr. Lloyd-George referred to the demands for the exclusion of foreign seamen from British ships and said he found that in 1904 there were 39,000 foreigners employed against 176,000 British subjects. He feared that the exclusion of foreigners would ruin the British shipping, but under the new bill foreigners hereafter must know sufficient English to understand words of command. Continuing, Mr. Lloyd-George explained that the Government proposed to impose on foreign ships only the obligations years past, and where the Government was satisfied that the regulations of any particular country were substantially equal to the British regulations, the ships of that country would be exempt as a whole from the British rules in regard to the loading.

Testimony of Woman Held Prisoner by Spriggs Shocks New York Court.

New York, March 22.—The trial of Robert Spriggs revealed one of the most revolting stories of human degradation ever told in the criminal courts of this city, when the woman, Hattie Warren, whom the negro abducted and subjected to inconceivable brutalities, took the stand in Judge Cowing's Court and told the pitiful story of her life in Spriggs' house at No. 14 Cornhill street.

She told how she met one of Spriggs' agents in February, 1905, and after accepting a drink straightaway became unconscious. She told the jury of the beatings which she had received at Spriggs' hands, and of the knocking out of two of her teeth. She told also of pleading with Spriggs to give her her liberty, and how in turn he kicked and knocked her down with his fist and then kicked her down a flight of stairs. She told how she escaped from her bondage by peeping out a window with an iron hook.

It was said in the courtroom that if the entire testimony of the woman were printed, the Tonab would not be strong enough to hold Spriggs, as a lynching bee would probably be the principal feature of the trial.

## AGREE IN PRINCIPLE.

But Morocco Details Are Yet Puzzling to the Rivals.

Berlin, March 22.—The French foreign minister, M. Bourgeois, informed the German ambassador, Prince von Radolin, at Paris Saturday last, that France accepted in principle the inspectorship of the Franco-Spanish police for Morocco as proposed by Austria-Hungary. The precise functions of the inspector to be deputed by the delegates to the conference at Algiers.

Much of the delay at Algiers is explained by the necessity that the envoys of Germany and France discuss telegraphically with their respective foreign offices every detail suggested by either side. Each exchange takes two days, and although an agreement has been reached in principle, fresh differences in the particulars seem to arise hourly, requiring patience and careful work.

**You Can Eat**
